where you like it and
I will strike to it and if
I get home next spring
as I expect to I will try
and fix crew and you
a home. I will not say any
thing more about it.

Mother do you ever visit
William Smith's. Another
array, you know it is our
business to look after the
Brothers of these men as
Bill was. I often think
of her poor sorrow I sup-
pose her sad and all the
worlds to her and it was
have broken her heart
almost to loss mind, he
was a good boy and Splendid
Soldiers. Dell cousin Helen
I would like very much to go to some of the places you speak of, but I think I could not walk 15-20 miles and enjoy my self much in one evening, so I will have to be satisfied with the privilege of thinking of home and its enjoyments. William Sargent has gone to Boston on a furlough he started a few days ago. Mother our picture were taken in our everyday clothes for we had no other kind, so you could not expect to get good pictures. Tell Brother Curran that although I have changed
my mind about taking a route off
and fighting Indians but
I think it perfectly right
to keep one that if able
to defend his own home.
We have had splendid
news from the South
West but do not place
any reliance on the
newspapers for my ear
 Camden opinion is they
will tell most anything
for money, good or bad
I will and myself
drink together and
a splendid tent we
have you know, even
our left up and shelter
lent to that we have fixed
up in the deserted
bamps of the two years
and I know the grand
that have gone home.
Now had ought of been
at the Depot the other
day when the 1st 45th
went home, they have
been noted for their cow-
ardice and when they
went home the boys of
all the Regt around here
grounded for them and
asked them how they
liked Fredericksburg
etc. the officers fairly foamed
at the mouth, but did
not do them any good
I just be any afraid but
what I can get along
with the money I keep for any own use for I can do withfors for
that matter. I have
money yet. Henry
Crooks told us all about
Havana, but I hear not
quite so well as one of
our Yankee boys for he
don't take as much not
ice of new things.

Do you ever hear
any thing of Benjamin
Coy? I haven't heard from
Benning for a long time
he snar of went up the
Yosegh canyon aged 29.Half a
favorite expression of the
collard individual

Ely is well and also
is. Chat with John Byam and I have not heard from for some time.

A. Brink is well and doing his regular duty. Brother I have with this letter
in a running hand
or rather swinging hand
and with the nonsense
that is in it and the
writing voiceless intelligible
memorials to be seen.

Love to Brother Cliff
and your self,

Respects to all my

Friends.

Yours truly,

Chas E. Cordaro.
