from one subject than I had read in  
some past than we before & more  
various in nature or subjects &  
think it is especially so just after tea

Reading the Morning paper containing  
conflicting statements & assertions  
by incompetent correspondents  
that I know to be false. The men  
very soon to be over charged I will  
stop reading them so much &  
watch for the result of the conclusions.  
Will argue the point with some one for fun
